

Bellows Spring Elementary School

Bellows Spring Elementary is working collaboratively with Tech4Learning to provide parents with an opportunity to gain access to an instructional computer program used by their children at school.

This school year, your child will be using an exciting program called *Pixie 2* to create a variety of paint, text and photo image activities. This software provides easy opportunities to combine drawing, photos, audio recordings and text into video files as well as printed files with layouts such as comic books, trading cards, and greeting cards.

Tech4Learning is providing parents of BSES with the opportunity to buy licenses of *Pixie 2* for \$35 plus tax. (This is over 30% off the regular price of \$54.95!). Plus, \$10 of every purchase will go to support the technology program at BSES.

The software is not a website, but an actual program that you will install on your home computer. The purchase will include an installation CD, User Guide and registration code. Accompanying tutorials, step-by-step directions and pre-created template are available within the program and online.

Pixie 2 CD provides installation files for both PCs and Macs. Linux installation CD available upon request.

Order Form:

Student Name: _____

Teacher: _____

Stand-Alone Single License \$37.10
(\$35 + \$2.10 tax)

Total Amount Enclosed:\$ _____

Return this form along with your payment to your homeroom teacher.

Make checks payable to Bellows Spring Elementary.
